

INTRODUCTION

Clean Source Ltd. is a service providers company. With the help of latest technology, hygienic health and protective chemical we are moving forward to provide best cleaning service such as reserve tank, pipe line, over head tank cleaning to the people.

Vision 💿

We at Professional Tank Cleaners aim to extend our services to a major part of our city in Dhaka and beyond ensuring a healthier way of living to one and all. This is achieved by way of cleaner water sources at homes and all work spots.

Mission

We provide fully mechanized and hygienic cleaning & disinfection for all types of domestic, commercial and industrial WATER TANKS.

Benefits of cleaning water tank

Unclean water can carry many harmful germs. If the water tank is not cleaned on a regular basis, it can lead to impurities in the water which may consist of many harmful germs. Water can thus get infected with various kinds of diseases including dysentery, cholera, gasto and several others

Why take service from CleanSource

CleanSource strength as a company is built on the strength of our employees, focused on providing the right janitorial needs, solutions and exceptional customer service. With a continuous focus on refining service, checked against standards of quality and internal benchmarks, we have taken customer service to the next level. Along with our committed employees, our deep understanding of customer needs and on the spot decision making, we have flexibility to provide what you need.

8 Step Cleaning Solution

We understand your busy schedule and we are just a phone call away. Let our experienced cleaners do the cleaning.
