We strive to uphold this commitment made to our customers by taking an honest approach without any short cuts. Our reputation is only matched by the standard with which we maintain the quality and cleanliness of our facilities.

Safety is our top priority

Sea Food

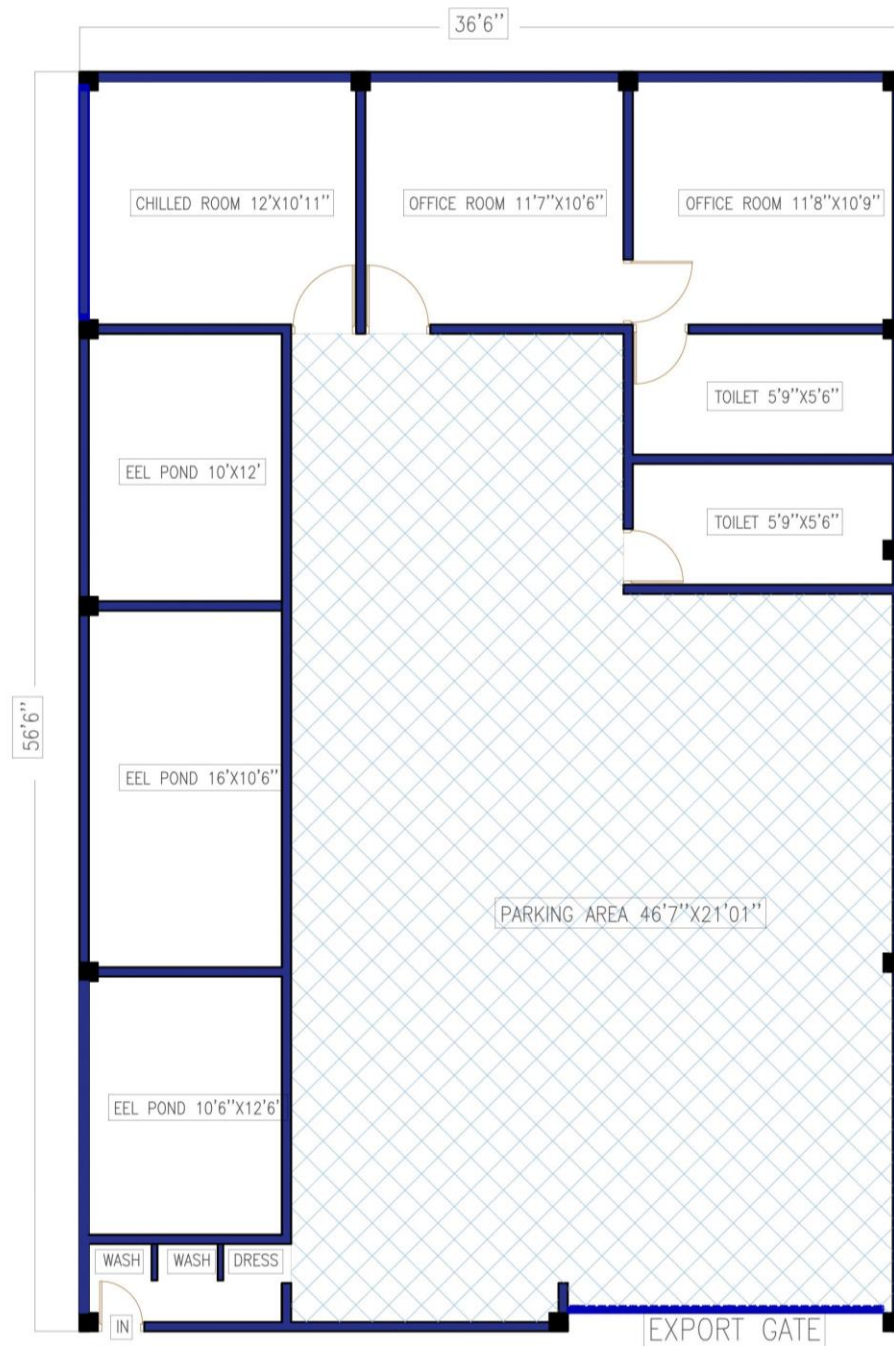

Best
Choose

Bag and Ship Live Fish

- Gathering Supplies and Readying the Fish.
- Use shipping bags and boxes designed for live fish transport.
- Place fish in an isolation tank for 24-48 hours without feeding them.
- Place insulating material and the bagged fish in the Styrofoam box.
- Seal the lid on the Styrofoam box, and place it into the cardboard box.
